

## Zabo Plant BV

Zabo Plant is an export company, specialised in lily-bulbs. We have a close relationship with some of the most renowned breeders. We supply lily bulbs from North- and Southern Hemisphere. Zabo Plant is focused on providing you with proper information, best crop knowledge, quality bulbs and service you can rely on.

Besides the main varieties, we will exhibit a lot of novelties. We have the double flowered oriental line of 'Roselily'. This year expanded with some new variety trials. Also for potlilies, Zabo Plant is your main partner. The 'LilyLooks' assortment of asiatic and oriental will be shown upfront. We will be more than happy to show you around in our 2011 constructed cool-storage facility and provide you with information about the improvements we made with packing and long term storage.
